Product Information

Whether the application is photographic portraiture or fine art reproduction, Epson's Canvas will satisfy even the most demanding professional by providing both the finest image quality as well as a vehicle for enhanced artistic creativity. Made from the highest quality 100% cotton duck fabric, this unique heavyweight, quality canvas utilizes a tight weave that is ideal for photographic and fine art reproductions. With a high resolution coating that is pliable enough to withstand stretching, Epson's Canvas displays a subtle texture for a true artistic look and feel. Combined with incredible color reproduction, a medium gloss finish, and an acid free archival quality base, this canvas is versatile enough for all applications that require the highest image quality and an archival display life. Like all of Epson's innovative media, this product is engineered to give you the highest resolution and color saturation possible. As always, EPSON supplies guarantee EPSON quality.

* Photographic dye version and archival ink version.

Features/Benefits

- High resolution canvas coating for outstanding reproductions
- Medium gloss surface for easy spraying
- Unique texture for true artist look
- Heavyweight for quality feel
- Acid free 100% cotton archival quality base
- Stretchable for framing
- Quick drying

Feature Checklist

Feature	Performance	Additional Comments
Indoor/outdoor usage	Indoor use only	
Lightfastness	More than 100 years	Lightfastness ratings are based on accelerated testing of prints on specialty media, displayed indoors, under glass. Lightfastness only estimates the life of the ink, not the media
Ink drying time	Quick	Ink is dry to the touch after printing. However, it takes 24 hours before it cures and becomes durable.
Resistance to water	Poor	Acrylic overcoat spray recommended for protection.
Ability to stretch	Excellent	An additional canvas tightening spray can be applied to the backside of the image.
Finishing	Versatile	Gloss or matte acrylic sprays can be applied to impact finished surface appearance.

NOTE: Actual print stability and longevity will vary according to image, display conditions, light intensity, humidity, atmospheric conditions, and post-printing treatments. Epson does not guarantee stability or longevity. For maximum print life, display all prints under glass or lamination or properly store them.

Technical Specifications

Basis weight	409.6 g/m ² 12.1 oz/yd ²
Thickness	18.8 mil
ISO brightness	82.6%
Opacity	97%
Hot lamination	Not recommended
Base material	100% duck cotton
Surface finish	Medium gloss
Core size	2"
Spindle	2"

Operating Specifications

Required temperature for optimum performance	60° - 80° F 15° - 25°C
Required humidity for optimum performance	40% - 60% RH

(Note: High humidity will prolong the drying time for spraying purposes.)
